

**BECAUSE QUALITY
IS MEANINGLESS...**

**...WITHOUT
COMPATIBILITY.**

**Turnkey solutions tailored for the
Banking & Financial services.**

For something as important as your mission critical systems, general practitioners simply won't do. What you require is the specialist, Nucleus Software. The innovative, internationally trusted expert, dedicated to providing the banking and financial services industry with pioneering, market driven solutions, services and expertise. Channelizing over 1500 man-years of application software development experience, to fine-tune products and services, in keeping with the emerging global needs.

The one stopshop

• Solutions and Services for the Banking and Financial Services segment • Software Development & Maintenance based on the offshore model • Web based workflow & transaction processing applications.

The Product basket

**FINNESS Suite of Integrated
Financial Services Products**

Finness is a powerhouse of seamlessly integrated software modules, for the Banking and Financial services business. However, organizations providing only select services will find that each module can be deployed independently as well, for performance and cost optimization. Built on the scalable Oracle platform, Finness is multi-branch, multi-currency, multi-product, and supports multilingual implementation.

**NUCLEUS
SOFTWARE**
