

The first 4 minute mile

The first step on the moon

The first successful heart transplant

Striving for the thrill of achieving those firsts in banking and financial services solutions.

Since inception in 1986, we at Nucleus Software have striven to redefine standards, achieve landmarks in banking and financial services solutions. Working closely with industry leaders, to understand and address their unique needs better. Creating proprietary products and solutions, that have raised the benchmarks. Ushering in new possibilities for the sector. The thrill we get in doing what we do, is surpassed only by the delight our solutions give, to your customers. And you. No wonder, our customer list comprises of who's who of the Global Banking and Financial Services Industry, including fortune 500 companies.
